

Function/Features	bookkeeperIQ	controllerIQ	enterpriseIQ
<b>Multi-Entity Administration Layer</b>			
Configurable, localised terminology for Practices/Groups/Franchise	Y	Y	Y
Quick company/entity setup wizard based on templates	Y	Y	Y
Brandable as franchise's or accountant's own solution	Y	Y	Y
User definable menu structures based on roles and permissions	Y	Y	Y
Control assignment of users to roles in specific companies/entities	Y	Y	Y
Re-assign companies/entities easily to other users when staff leave	Y	Y	Y
Control access to reports and dashboards according to user defined roles	Y	Y	Y
Auto tracking of time by user in each company/entity	Y	Y	Y
<b>General System Features</b>			
Ability to localise system terminologies based on location and/or sector	Y	Y	Y
Multiple windows environment to allow multi-tasking during sessions	Y	Y	Y
Fully integrated open item ledgers	Y	Y	Y
Independent period management for all ledgers	Y	Y	Y
Speed data entry features including user definable defaults; use of Function keys; Quick entry screens for most transactions	Y	Y	Y
Central codes and defaults maintenance for all modules	Y	Y	Y
User defined filtering, sorting and column/grid selection on enquiry screens	Y	Y	Y
Online Help and Support Call Logging directly from the system	Y	Y	Y
Full audit trail with browser facility to trace transactions based on user criteria. User defined grid of transaction data to be displayed	Y	Y	Y
Full transaction editing and change logging functionality	Y	Y	Y
Tax processing & reporting (VAT for UK & Irl, Aus GST, US Sales Tax)	Y	Y	Y
Full multi currency processing for sale, purchase, and bank transactions		Y	Y
<b>Integration Layer</b>			
Data Export facility allowing for the extraction of all DynamicsIQ data in CSV and Excel format	Y	Y	Y
Data Import facility for upload of master file details, account balances, transactions, charts of accounts, stock/inventory, etc...		Y	Y

**Issue Date: April 2011:**

DynamicsIQ is constantly being improved so functionality is subject to change. Whilst care has been taken to ensure that all information is accurate at the time of issuing (above), Visor Limited accepts no responsibility for any errors or omissions, whether caused by negligence or otherwise, or for any loss, however caused, occasioned to any person or company by reliance on it.

Function/Features	bookkeeperIQ	controllerIQ	enterpriseIQ
Web Services Integration layer allowing for integration to other systems for all major transaction types in DynamicsIQ		Optional	Optional
<b>Accounts Receivable/Debtors</b>			
Flexible user definable alpha-numeric coding structure	Y	Y	Y
Multiple control accounts (e.g. for separate control of client monies or inter-company accounts)	Y	Y	Y
Head Office grouping and processing of multi location customer accounts	Y	Y	Y
Facilitates forward dated invoicing	Y	Y	Y
Invoice copy/repeat feature	Y	Y	Y
Quick Customer Receipt entry screens, including Auto Invoice creation for more efficient transaction processing	Y	Y	Y
Easy cash posting with full allocation to transactions	Y	Y	Y
Statement production with full ageing	Y	Y	Y
Bulk or individual emailing of invoices and statements directly from system	Y	Y	Y
Credit notes and Credit/Debit journal adjustments	Y	Y	Y
Line Item Sales Invoicing	Optional	Y	Y
Full handling of foreign currency customers and receipts		Y	Y
Recurring Sales Invoice auto generation and management		Y	Y
Ability to extract and generate sales invoices for transmission in EDI format		Y	Y
<b>Accounts Payable/Creditors</b>			
Flexible user definable alpha-numeric coding structure	Y	Y	Y
Multiple control accounts (eg: separate control of inter-company accounts)	Y	Y	Y
Keeps track of forward dated invoices	Y	Y	Y
Quick Supplier Payment entry screens, including Auto Invoice creation for more efficient transaction processing	Y	Y	Y
Easy cash posting with full allocation to transactions	Y	Y	Y
Debit notes & Credit/Debit journal adjustments	Y	Y	Y
User defined credit terms and automatic ageing	Y	Y	Y
Easy payment generation and remittance advice production	Y	Y	Y
